

OUR STORY

From the moment Brittany walked into the studio she instantly felt at home. Brittany spent her entire childhood and young adult life in the studio learning, practicing, watching, teaching & being inspired. More hours than she could count were spent thinking about what the future would look like and dreaming about one day owning her own studio. In 2016 this dream became a reality, when Limitless Dance Company opened its doors. Words can not express how incredible lucky we feel to be able to do something that we love every day; while also sharing this passion with you and your children. Limitless Dance Company would not exist if it was not for you and for that we are eternally grateful. We hope that dance will inspire your children and we can help them reach their future goals whatever they may be.

Welcome to the Limitless Dance Family!
